Qbeel Consulting LLC

Secure Modernization and Cyber Risk Advisory

Capability Statement

Virginia SWaM Certified #841156 | Small, Micro, Women-Owned, Minority-Owned | Vienna, VA

Overview

Qbeel Consulting LLC helps public agencies and companies modernize their systems and lower cyber risk before an incident forces the issue. We deliver engineering work with vetted partner teams under US-based executive governance.

Core Competencies

- Cloud & Application Security Assessments. Vulnerability assessments, external attack-surface scanning, and cloud/IAM configuration reviews.
- Enterprise API & Legacy Modernization. API integration and cloud migration for aging custom applications.
- IT Governance, PMO & Risk Alignment. Program oversight and vendor risk governance for regulated technology projects.
- Cyber Incident Readiness + Crisis Communications. Technical response plans, developed alongside executive and media messaging for incidents.

Engagement Model

Rapid Security & API Readiness Diagnostic. A custom-scoped review of your cloud environment, web applications and APIs, delivered with an executive readout and a 90-day remediation roadmap.

Differentiators

- Supports prime contractors' Virginia SWaM subcontracting goals, with subcontract spend reporting.
- A single team to support technical risk management and the communications around it.
- US-based staffing and data handling provided for regulated workloads, subject to scope.

Leadership

Madiha Waris, Founder & CEO; Asad Ullah Khalid, Co-Founder & Chief Growth Officer; Dr. Marios Efthymiopoulos, Senior Advisor, Strategic & International Affairs. Named technical key personnel proposed with each engagement.

Corporate Experience

Regional Hospitality Brand, Arlington, VA (Jul–Nov 2025). Prime engagement: digital marketing and social media management, including brand positioning. Separate from key personnel experience.
